PROFESSIONAL PROFILE

Information Security and Networks Engineering student entering my 5th semester, specialized in configuring network devices and creating SQL databases. I excel in high-focus environments when solving logical problems and technical or security puzzles, always working with empathy, respect, and honesty. Passionate about video games and customization, I aim to organize events that inspire more young people to get interested in software and information security careers, and to dive into cloud computing (AWS).

WORK EXPERIENCE

Math Tutor - Scholar Intern

Aug. 2024 – Present

UMAD

Responsibilities:

- **Troubleshoot** and analyze the root cause of students' primary academic difficulties to solve complex logic problems from the base.
- **Adapt** teaching methodologies dynamically based on individual student learning styles and technical comprehension levels.
- **Simplify** and explain complex mathematical theories into clear, structured, step-by-step technical concepts.
- **Coordinate** and manage weekly tutoring schedules to efficient academic support infrastructure for students.
- **Manage** and track attendance logs and student progress metrics for the scholarship department administration.
- **Guide** and mentor peers in developing strong analytical thinking and systematic problem-solving skills.

Achievements:

- **Optimized** students' overall academic performance, leading to measurable improvements in both conceptual knowledge and exam grades.
- **Increased** student retention of complex logic and mathematical concepts by designing structured, step-by-step study guides.

ACADEMIC BACKGROUND

Universidad Madero

Puebla, México

Bachelor Degree of Cybersecurity and Networking - 4th Semester of 8

Certifications and Badges

- CCNA: Introduction to Networks — Cisco 2026
- CCNA: Switching, Routing, and Wireless Essentials — Cisco 2026
- AWS Cloud Club Core Team 2026
- Introduction to IoT — Cisco 2025

Language

Spanish - Native

English - Intermediate(B2)

TECHNICAL SKILLS

- Programming
- Database Creation (SQL)
- Database Normalization
- CCNA, (Cisco Certified Network Associate)
- Organize Events
- Linux, (Debian, Ubuntu, Kali)

SOFT SKILLS

- Complex Problem Solving
- Leadership
- Professional Ethics
- Emotional Intelligence
- Honesty

ACHIEVEMENTS AND RECOGNITIONS

Letter of Recommendation
